

QGIS Application - Bug report #7117

SAGA Grid Calculator does not work when "Use NoData" is set to "Yes"

2013-02-07 02:50 AM - Michal Belcik

Status:	Closed	
Priority:	Normal	
Assignee:	Victor Olaya	
Category:	Processing/SAGA	
Affected QGIS version:	2.4.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 16190
Description		
When "Use NoData" is set to "Yes", it is not working - works fine only if it is set to "No".		

History

#1 - 2013-02-07 02:56 AM - Giovanni Manghi

- Subject changed from SAGA Grid Calculator to SAGA Grid Calculator does not work when "Use NoData" is set to "Yes"

#2 - 2013-02-07 03:44 PM - Victor Olaya

- Status changed from Open to Feedback

Works fine for me here in both cases. Can you tell us if you have no data values or not in your layer, and the formula used? The SAGA console ouput will also be helpful

Thanks!

Thanks!

the operation is like

a*(-0.1)

the sample raster is uploading (will post the link in a few minutes)

and the saga output is
SAGA execution console output

Oh well,

the sample data may not be necessary after all, the culprit seems to be te

Unknown option 'USE_NODATA'

does this depends on the SAGA version?

I'm on Ubuntu but pretty sure that the same issue comes up also on Windows...
