

QGIS Application - Bug report #7134

new labels are not saved in qml as they were old labels

2013-02-10 03:52 AM - Giovanni Manghi

Status:	Closed	
Priority:	Severe/Regression	
Assignee:	Larry Shaffer	
Category:	Labelling	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 16201
Description		
<p>With old labels/symbology the labels were saved with other symbology stuff inside th qml style file. The new labels are not.</p> <p>Unless this is by design this is a regression.</p>

Revision 87ca653e - 2013-05-29 11:38 PM - Nathan Woodrow

Fix #7134

History

#1 - 2013-03-07 06:48 PM - John Tull

And the inverse is true as well. I.e., loading a qml file with labeling definitions fails to change the labeling options in the layer.

- Resolution set to worksforme
- Status changed from Open to Closed

Seems to be fine in master now. Reopen if not fixed for you.

#3 - 2013-05-28 05:12 PM - Giovanni Manghi

- Resolution deleted (worksforme)
- Status changed from Closed to Reopened

I just updated on osgeo4w and still does not work. When you apply the .qml style the labels does not show and in fact the "label this layer with" checkbox is not even active.

The fix had been applied after the latest qgis revision available now on osgeo4w? if yes you can close (again) this ticket. Cheers!

#4 - 2013-05-28 05:15 PM - Nathan Woodrow

Ok yes it seems the loading is the issue.

#5 - 2013-05-28 06:40 PM - Nathan Woodrow
