

QGIS Application - Bug report #717

Problem creating new column for postgres

2007-05-20 11:27 PM - Marco Hugentobler

Status:	Closed	
Priority:	Low	
Assignee:	Marco Hugentobler	
Category:	Digitising	
Affected QGIS version:		Regression?: No
Operating System:	All	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 10776
Description		
<p>Trying to add a column to a postgres-table. This seems to work as expected inside the GUI, but after deleting the layer, reload it, the column does not appear. in psql the column is not there ether.</p> <p>This is the output inside the console during the creation-process:</p> <p>Debug: qgspostgresprovider.cpp: 881: (reset) Setting up binary cursor: declare qqisf binary cursor for select "gid",asbinary("the_geom",'NDR') as qgs_feature_geometry from "public"."gewaesserflaechen"</p> <p>Debug: qgsmaplayer.cpp: 127: (name) [[QgsMapLayer]]::name: returning name 'gewaesserflaechen'</p> <p>Warning: inserting attribute testcolumn of type double precision</p> <p>Warning: numCols: 7</p> <p>WARNING: there is already a transaction in progress</p> <p>Debug: qgspostgresprovider.cpp: 881: (reset) Setting up binary cursor: declare qqisf binary cursor for select "gid",asbinary("the_geom",'NDR') as qgs_feature_geometry from "public"."gewaesserflaechen"</p> <p>WARNING: there is no transaction in progress</p> <p>WARNING: there is already a transaction in progress Debug: qgspostgresprovider.cpp: 1992: (addAttributes)</p> <p>ALTER TABLE "public"."gewaesserflaechen" ADD COLUMN testcolumn double precision</p> <p>Debug: qgspostgresprovider.cpp: 881: (reset) Setting up binary cursor: declare qqisf binary cursor for select "gid",asbinary("the_geom",'NDR') as qgs_feature_geometry from "public"."gewaesserflaechen"</p> <p>WARNING: there is no transaction in progress</p> <p>WARNING: there is already a transaction in progress</p> <p>Debug: qgspostgresprovider.cpp: 881: (reset) Setting up binary cursor: declare qqisf binary cursor for select "gid",asbinary("the_geom",'NDR') as qgs_feature_geometry from "public"."gewaesserflaechen"</p> <p>WARNING: there is no transaction in progress</p> <p>Is this a problem in the configuration of the postgres-server or inside QGIS?</p> <p>This is tested with qgis 0.8.0 and checkout of release</p>		

0.8.0-branch against
postgis_full_version

POSTGIS="1.2.1" GEOS="3.0.0rc4-CAPI-1.3.3" PROJ="Rel. 4.5.0, 22 Oct
2006" USE_STATS

Thanks for any tips.

Best
Stephan

same in 0.9

#2 - 2007-07-07 01:09 AM - Marco Hugentobler

Hm, I tried it today with current svn () and it worked for me. There have been some changes in adding/removing postgis columns during the last month. Could you test if you still have this problem with updated svn version? If yes, what was the type of the added column?

Marco

- Resolution set to fixed
- Status changed from Open to Closed

Works for me. Please reopen this bug if it does not work for you.

Marco
