

QGIS Application - Bug report #7240

Copy and Paste of Features does not work

2013-02-26 11:44 PM - Andreas Neumann

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Digitising	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 16268
Description		
<p>When copying and pasting features from one layer to another nothing happens.</p> <p>Maybe a problem of the new Vector API?</p> <p>Tested on Windows (OSGeo4W - recent nightly build) with Postgis layers and line geometries.</p>

Hi Giovanni,

Did you also test with 2 Postgis Layers or just with shapes or spatialite?

Andreas

Works for me with two postgis line layers, too. Anything special about your layers? I just d&d one line layer from one user to another, clean it, and then copied some features - apparently worked fine.

ok - I have to test again tomorrow at work. I don't have the project with me. Thank you both for testing!

Andreas

- *Resolution set to invalid*

Turned out that it is my fault. A layer filter prevented it to display the feature. Sorry about the fusss!
