

QGIS Application - Feature request #7367

Allow pixels as units in print composer

2013-03-15 12:07 PM - Evan Derickson

Status:	Closed	
Priority:	Normal

Category:	Map Composer/Printing	
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Easy fix?:	No	Copied to github as #: 16340
Description The Print Composer can be used to prepare maps for screen output as well as print output, but it currently only offers real-world measurements such as inches, centimeters, etc, and paper-based page size presets. The addition of pixels as a page unit, and presets for commons sizes such as 800x600, 1024x768, etc., would enhance the creation of map layouts intended for screen outputs, such as a slideshow or web page.

+1 I think this would be a neat feature

#2 - 2014-04-06 06:04 AM - Jürgen Fischer

- *Category changed from 33 to Map Composer/Printing*

#3 - 2017-05-01 12:48 AM - Giovanni Manghi

- *Easy fix? set to No*

#4 - 2017-12-19 01:19 AM - Nyal Dawson

- *Resolution set to fixed/implemented*

- *Status changed from Open to Closed*

Fixed in layouts engine
