| Description | | |
| Open Spit | | |
| Select a connection from list | | |
| Click edit | | |
| Spit window dissappears behind main window | | |
| This happens similaraly whenever the spit dialog loses focus. | | |

History

#1 - 2006-05-16 03:29 AM - Gavin Macaulay -

A possible fix is in SVN commit:e8c22b4c (SVN r5464). Needs testing though...

#2 - 2006-06-17 12:33 PM - Gary Sherman

- Resolution set to fixed
- Status changed from Open to Closed

This works properly now. Note that since the SPIT dialog is non-modal, it is still possible for it to be hidden when it loses focus.
