<p>Documentation found on: http://docs.qgis.org/html/en/docs/user_manual/introduction/qgis_configuration.html#panels-and-toolbars</p> <p>states that you can toggle the "icon groups in the QGIS toolbar" by going to Settings > Toolbars . with an accompanying image of this.</p> <p>This is incorrect. Instead, it can be done by going to View > Toolbars.</p> <p>(This applies to 1.8 users, so disregard if this is changed in 2.0).</p>
