| Operating System: | Easy fix?: |
| Pull Request or Patch supplied: | Resolution: worksforme |
| Crashes QGIS or corrupts data: | Copied to github as #: 16431 |
| Description | |
| <p>I'm trying to clip a line layer with a polygon layer and it turns that if the clip layer is a shape the operation goes ok, if it is postgis then it never ends and eventually the user has to clic "cancel" (that seems at least to correctly stop the operation).</p> | |

History

#1 - 2013-06-02 07:50 AM - Giovanni Manghi

- Resolution set to worksforme
- Status changed from Open to Closed

I cannot confirm it anymore.

#2 - 2017-05-01 01:21 AM - Giovanni Manghi

The "ftools" category is being removed from the tracker, changing the category of this ticket to "Processing/QGIS" to not leave the category orphaned.
