

QGIS Application - Bug report #7480

"save as..." of a vector with a Join leads qgis master to freeze

2013-03-31 03:25 AM - Giovanni Manghi

Status:	Closed	
Priority:	Severe/Regression	
Assignee:		
Category:	Vectors	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 16432
Description		
subject says it all. With the same sample data it works ok on 1.8. It also freezes if selecting a small number of features and trying to do a "save selection as...".

not confirmed here on newest master (12. April 2013)
can you test again and maybe close this blocker?

Or can you explained which data you joined?

I tried with a shape file and and xls list ..

- Resolution set to invalid
- Status changed from Open to Closed

cleaned my installation by deleting the quantum gis folder inside .config and now it works.
