

QGIS Application - Bug report #7499

Attribute edit dialogs shouldn't require two tab hits to change to the next entry

2013-04-03 02:22 PM - Anita Graser

<b>Status:</b>	Closed

<b>Description</b>		
<p>I understand what the "delete broom" buttons are good for but in my opinion they should not be targeted when clicking tab to change to the next field. It's very irritating and surprising. The first few time, I thought I had made a mistake before I realized that the focus is going to the "delete broom".</p>
