

QGIS Application - Bug report #7647

Ineffective encoding listbox in OGR layer properties dialog

Status:	Closed	
Priority:	Normal

Category:		
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	Applied	Resolution: fixed
Crashes QGIS or corrupts data:	No	Copied to github as #: 16567
Description		
<p>OGR layer encoding can be set to only UTF-8 if OGR TestCapability(OLCStringsAsUTF8) returns true (e.g. KML), but the encoding listbox in the vector layer properties dialog is always enabled with OGR layer. I think it is preferable to make the listbox grayed out if user's selection will not be applied.</p>
