QGIS Application - Bug report #7675
objects do not stay grouped in print composer

2013-04-22 07:27 AM - Giovanni Manghi

Status:	Closed		
Priority:	Severe/Regression		
Assignee:			
Category:			
Affected QGIS version:	master	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	
Crashes QGIS or corrupts data:		**Copied to github as #:**	16592

Description

After closing a project and reopening it, the object that were grouped are not grouped anymore.

It affects both master and 1.8.

Although it's not regression, I think it affects a critical functionality. IMHO it should be a Blocker.

#2 - 2013-05-29 08:35 AM - Paolo Cavallini

- Priority changed from High to Normal

IMHO is not very serious (no data loss, more of an annoyance)

for complex layouts, that may take days to complete, it is a quite a serious issue.

#4 - 2013-07-20 04:02 AM - Filipe Dias

- Priority changed from Normal to Severe/Regression

I managed to test this with qgis 1.7.4 on windows 7 using the .exe installer and it worked. I have no way of testing it on Linux.

#5 - 2013-07-20 08:32 AM - Jürgen Fischer

- Status changed from Open to Closed

Fixed in changeset commit:"745fcbfe70922798b1355e934d5bebbb392449fb".
