<b>Description</b>		
<p>The QGIS 1.8.0 manual refers to "another project from the Alaska dataset" and "alaska_grassland.qgs" in section 7.8.1, Embedding layers, on page 40/pdf page 46. That data is missing from the sample data downloaded from the reference on page 16/pdf page 22. I looked in both the tar.gz na zip files.</p>
