QGIS Application - Bug report #7682
Label move not functioning on file with national characters

2013-04-23 04:11 AM - magerlin -

Status:	Closed			
Priority:	Normal			
Assignee:	Larry Shaffer			
Category:	Vectors			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	worksforme	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	16599	

Description

If I try to use the labeling tools (Move Label, Rotate Label) from the Label
Toolbar on a shape file with national characters in the file name it will
not function - nothing happens, I can not even select the label.

Renaming the file makes it function.

Qgis 1.8.0 Stand alone installer and Qgis 1.9.0 (a81fa7) in Win7 64 bit .

Confirmed by other user also to be a problem in Qgis Master Ubuntu 12.04

History

- Assignee set to Larry Shaffer

#2 - 2016-01-10 11:10 AM - Sebastian Dietrich

I can not reproduce using current master (commit:19a47fec29a35b264e42893e7b56f22a5759ffc5) and a shapefile named "TestÄÖÜ".

Is this still an issue?

If yes, can you attach a shapefile that is affected by it?
