

## QGIS Application - Bug report #7759

### Creates mis-styled SLD file

2013-05-03 05:22 AM - Jonathan Moules

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Symbology	
<b>Affected QGIS version:</b>	master	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 16658
<b>Description</b>  See attached. The QML contains what the feature should look like "should.png". The SLD is what it "does.png" look like. Also included is the SVG. Obviously exporting it as a SLD hasn't worked properly.  Using Master weekly - 1959182		

#### History

##### #1 - 2013-05-04 02:33 AM - Giovanni Manghi

- Category set to Symbology

##### #2 - 2017-05-01 01:09 AM - Giovanni Manghi

- Easy fix? set to No

- Regression? set to No

##### #3 - 2017-10-14 11:45 AM - Andrea Aime

- Resolution set to fixed/implemented

- Status changed from Open to Closed

- Description updated

Just tested with 2.18.x, the SLD appears to properly reference the SVG, with the right size, and expected filter included. I'd say this has been fixed.
