

QGIS Application - Feature request #780

Enable/disable given buttons in toolbars

2007-10-17 02:44 PM - cdavila -

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: GUI	
Pull Request or Patch supplied:	Resolution: wontfix
Easy fix?: No	Copied to github as #: 10839
Description	
Currently toolbar buttons are grouped in various categories that can be enabled/disabled all of them in each group, but IMHO it would be better if you can select single buttons to enable/disable individually.	

History

#1 - 2008-07-14 02:40 PM - Tim Sutton

- Resolution set to wontfix
- Status changed from Open to Closed

This functionality is provided by the underlying Qt toolkit and until they support this it will be a massive job for us to implement this ourselves. For this reason I'm marking this as won't fix, with apologies.

Regards

Tim
