Does not happen with LibreOffice. Maybe this is a MS Office issue, not a QGIS one(?). Cheers.

#2 - 2013-05-26 10:19 AM - Giuseppe Sucameli

It may not depend on underscores, probably those strings ends with a newline.

#3 - 2013-05-26 10:21 AM - Giuseppe Sucameli

Have you tried with different shapefiles or just that one?  
Could you provide a sample dataset we can use to reproduce the issue?

#4 - 2013-05-27 06:49 PM - Damien Smith

The data had carriage returns on the end. My apologies.
