QGIS Application - Bug report #80
Zoom to selection for single point does nothing

2006-04-15 02:50 AM - Tim Sutton

Status:	Closed			
Priority:	Low			
Assignee:	Gavin Macaulay -			
Category:	Vectors			
Affected QGIS version:		**Regression?:**	No	
Operating System:	Debian	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed	
Crashes QGIS or corrupts data:		**Copied to github as #:**	10139	

Description

Problem:

- Select a single point from a point layer
- Pan so point is off screen
- Click zoom to selection
- QGIS does nothing

Requested Solution:

Implement required logic to allow single points to be zoomed in to. Zoom operation should leave a buffer around the point so that it is displayed in proper context.

History

#1 - 2006-04-15 02:51 AM - Tim Sutton

Sorry I forgot to login when posting this bug...it was submitted by me.

#2 - 2006-04-15 05:33 PM - Gavin Macaulay -

Partial fix in svn commit:ca7c5359 (SVN r5285).

#3 - 2006-04-15 06:25 PM - Gavin Macaulay -

- *Resolution set to fixed*
- *Status changed from Open to Closed*

Fixed in svn commit:2036012b (SVN r5286)

#4 - 2009-08-22 12:46 AM - Anonymous

Milestone Version 0.8 deleted
