Pull Request or Patch supplied:		**Resolution:**	invalid	
Crashes QGIS or corrupts data:		**Copied to github as #:**	16914	

Description

Hi all,

I've also found a peculiar problem when creating new polygons. After finishing drawing the polygon, the attribute window that pops up to let the user enter in the attribute data associated with the particular new polygon is blank. On the other hand, new point creation still pops up with the attribute data entry fields correctly.

Works here.

Can you make sure, that in "layer properties" => "Fields", the combobox for "attribute editor layout" is set to "Autogenerate" and no python init function is defined.

#2 - 2013-06-16 02:23 AM - Giovanni Manghi

I also does not confirm.

#3 - 2013-06-16 02:23 AM - Theron Morgan-Brown

Thanks Matthias. You are correct. It was not set to autogenerate by default. After selecting autogenerate it works fine.

#4 - 2013-06-16 02:24 AM - Giovanni Manghi

- Resolution set to invalid
