Crashes QGIS or corrupts data:	No	**Copied to github as #:**	16951	

Description

When QGIS is started the first time, all toolbars are mashed in one row and essential tools are hidden where many new users fail to find them.

This situation could be improved by having at least two rows by default.

The goal should be to at least have all pan/zoom tools visible.

Associated revisions

Revision 4ea2769d - 2013-06-19 11:08 PM - Jürgen Fischer

- move ui defaults to ui_defaults.h

- add scripts/mkuidefaults.py to create ui_defaults.h from current

  setting

- default ui state with two toolbar rows (fixes #8117)

- update plugin registry state of nsis installer

History

#1 - 2013-06-19 11:34 AM - Borys Jurgiel

- Priority changed from Normal to High

Furthermore, all the overlapping toolbars make the first impression **very** poor.

#2 - 2013-06-19 02:13 PM - Jürgen Fischer

- Status changed from Open to Closed

Fixed in changeset commit:"4ea2769d92baecd1d935ff1e701ab04ed33db194".
