Description		
<p>In QGIS master, install a plugin with a description which is taller than fits in the window, so you need to scroll down to finish reading it (e.g. the "Value Tool" plugin).</p> <p>Try to scroll the description by clicking and dragging the scroll bar - it doesn't work. You need to scroll with the mouse wheel or the arrow buttons... but what if your machine has neither? ;)</p>
