

QGIS Application - Bug report #8123

WFS Filter : send empty data instead of XML error when no feature found

2013-06-21 12:28 AM - Michael Douchin

Status:	Closed	
Priority:	Normal	
Assignee:	René-Luc ReLuc	
Category:	QGIS Server	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed
Crashes QGIS or corrupts data:	No	Copied to github as #: 16956
Description		
When a getFeature request has a FILTER parameter, and when no data corresponds, QGIS answer sometimes with <pre><ServiceExceptionReport version="1.3.0"><ServiceException code="RequestNotWellFormed">No feature found error messages: .</ServiceException></ServiceExceptionReport></pre> It would be better to send back an empty GML (Or GeoJSON) instead.
