

QGIS Application - Bug report #8175

set raster legend icon generation to off by default

2013-06-27 01:53 AM - Andreas Neumann

Status:	Closed	
Priority:	Severe/Regression	
Assignee:		
Category:	Rasters	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 16994
Description		
<p>A discussion on the german fossgis-user group revealed that generating raster previews slows down raster loading a lot. Esp. for VRT raster catalogs.</p> <p>Settings -> Options -> Canvas and Legend -> Create Raster Icons (may be slow) should be set to off by default for new users.</p> <p>Performance is more important than icons in the legend. The preview icons are too small for most cases anyway.</p>
