

QGIS Application - Bug report #8275

Checking for spatialite capability fails when "save as" dialog is opened two or more times

2013-07-11 04:38 PM - Daniel Vaz

Status: Closed	
Priority: Normal	
Assignee:	
Category: Data Provider/SpatialLite	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 17078
Description	
<p>The first time when I try to save a vector layer using menu "save as" the option to export as Spatialite exists and works fine.</p> <p>If I try for the second time (without close the QGIS) the following output appears in console: ERROR 1: It seems a file system object called '/vsimem/spatialitetest.sqlite' already exists.</p> <p>I am using master version (compiled from source) on Ubuntu 13.04.</p>
