| <p>In the administration panel of plugin owners field contains different set of owners, seems some users are missed from list. For example when editing RasterCalc plugin (<a href="http://plugins.qgis.org/plugins/rastercalc">http://plugins.qgis.org/plugins/rastercalc</a>) I can select "nextgis" user from Owners list, while when editing DPSimplify plugin (<a href="http://plugins.qgis.org/plugins/dpsimplify">http://plugins.qgis.org/plugins/dpsimplify</a>) "nextgis" user is missed from owners list</p> |        |  |

#### History

##### #1 - 2013-07-23 05:53 AM - Alexander Bruy

- Subject changed from *in the administration panel of each plugin* to *Not all users listed in owners list*

##### #2 - 2013-07-23 05:58 AM - Alessandro Pasotti

- Status changed from *Open* to *Closed*

Not a bug: if a user is already a "maintainer" for a plugin he cannot be also an "owner".
