

QGIS Application - Bug report #842

Digitizing tools are active even though editing mode was not enabled

2007-11-30 04:07 AM - Maciej Sieczka -

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Digitising	
Affected QGIS version:		Regression?: No
Operating System:	All	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 10901
Description		
<p>1. add some polygon shapefile</p> <p>2. most digitising tools become active</p> <p>They should not be, until I press 'Toggle editing'.</p> <p>Now add a GRASS polygon vector map. When you select it in the legend, most digitizing tools are deactivated, but 'Add ring' and 'Add island' still are active. Strange, undesired and puzzling.</p>		

History

#1 - 2007-12-01 09:48 AM - Jürgen Fischer

- Resolution set to fixed

- Status changed from Open to Closed

fixed in commit:964b3a99 (SVN r7703)

#2 - 2007-12-05 07:15 AM - Jürgen Fischer

after commit:964b3a99 (SVN r7703) you had to toggle editing, change to an other layer and back to get the tools enabled. commit:481dd119 (SVN r7716) fixed that.
