QGIS Application - Bug report #8431
Field Calculator ignoring "output field type"

2013-08-08 05:10 AM - Jonathan Moules

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:				
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	invalid	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	17200	

Description

If I do a area calculation and have it specified as "whole number (integer)", the output I see in the attribute table clearly shows a decimal/double/real datatype.

History

#1 - 2013-08-08 10:24 AM - Giovanni Manghi

- Resolution set to invalid

- Status changed from Open to Closed

After you save the values are saved as expected. There was a refreshing issue after saving that was fixed today, see: #8405
