

QGIS Application - Feature request #846

No miles / inches display in scale bar

2007-12-02 09:32 AM - Tim Sutton

Status:	Closed	Resolution: fixed Copied to github as #: 10905
Priority:	Low	
Assignee:	Tim Sutton	
Category:	Build/Install	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
<p>When using metric units the scale bar shows km / cm / mm as appropriate. In imperial mode, it only ever shows feet. I am attaching a patch to add support for miles and inches display for inclusion into trunk post 0.9.1 release.</p>		

History

#1 - 2007-12-07 05:33 AM - Tim Sutton

- Resolution set to fixed
- Status changed from Open to Closed

Fixed as of commit:a3be3c21 (SVN r7742).

#2 - 2009-08-22 12:54 AM - Anonymous

Milestone Version 0.9.2 deleted
