QGIS Application - Bug report #8461
Viewport resize behavior asymmetric

2013-08-12 12:34 PM - Sandro Santilli

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	GUI			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	duplicate	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	17229	

Description

Enlarging the viewport size retains map scale and exposes a bigger geographical extent while shrinking the viewport size retains the map extent by reducing its scale. This asymmetric behavior makes it impossible to "undo" a viewport resize by reverting the change.
