QGIS Application - Bug report #847
delimited text import plugin skips the first input point

2007-12-03 03:24 AM - Maciej Sieczka -

Status:	Closed			
Priority:	Low			
Assignee:	Gavin Macaulay -			
Category:	C++ Plugins			
Affected QGIS version:			**Regression?:**	No
Operating System:	All		**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	fixed
Crashes QGIS or corrupts data:			**Copied to github as #:**	10906

Description

Try the attached text file, using space for delimiter. All 8 points are displayed in the "Example text" box when setting up the import, but only 7 are actually imported - the first one is skipped.

History

#1 - 2007-12-03 04:19 AM - Jürgen Fischer

The first line is expected to carry column titles not data. I quite sure I saw that documented somewhere, when I worked on the german translation. But I can't seem to find it now. This probably needs to be at a more prominent place.

#2 - 2007-12-03 08:26 PM - Gary Sherman

First row must be a header row. This is documented on the user guide.

Since we are in string freeze, no changes will be made to the dialog itself until after the 0.9.1 release.

#3 - 2007-12-07 09:10 PM - Gavin Macaulay -

- Status changed from Open to In Progress

#4 - 2007-12-15 08:11 PM - Gavin Macaulay -

- Resolution set to fixed
- Status changed from In Progress to Closed

Documentation altered in commit:e22b29c3 (SVN r7794) to make the need for a header row clearer.

#5 - 2009-08-22 12:54 AM - Anonymous

Milestone Version 0.9.2 deleted
