Description

Dear Team,
My PC Qgis is not installed properly,so i was trying to uninstall the program but i am getting the following meassage and uninstallation is stuck and not processing further
The error message is "Preremove.bat is not recognized
as an itnernal or external command.operator program or batch file"

History

#1 - 2013-08-31 12:58 PM - Giovanni Manghi

- Tracker changed from Feature request to Bug report

- Affected QGIS version set to 1.8.0

- Status changed from Open to Feedback

- Category set to Build/Install

- Crashes QGIS or corrupts data set to No

Plase give more details. Did you used the "standalone" installer? why you say that "qgis is not installed correctly"?

#2 - 2013-09-02 01:54 AM - Thaha Ibrahimkutty

Dear Team,
Thanks for the update.
I am not noticed any error message during installation and I wrote that due to uninstallation issue.

I think its a standlone installaer and its file name is given below
QGIS-OSGeo4W-1.8.0-2-Setup

Rds
Thaha

#3 - 2014-06-22 02:48 AM - Giovanni Manghi

- Status changed from Feedback to Closed

- Resolution set to wontfix

I'm not aware of any particular issue when uninstalling one of the latest qgis releases, reopen if necessary.
