<b>Easy fix?:</b>	No	
<b>Description</b>		
<p>Hello, this would be a very nice feature:</p> <p>In the print composer, labels are not restricted by the frame of my composition, in fact most of the labels are cut. Moving the content of the map, is not a solution with label moving along. It would be nice to had a labelling option to "prevent" label to fall out of the page.</p> <p>Best regards</p> <p>Arthur</p>

- *Resolution set to invalid*

- *Status changed from Open to Closed*

- *Description updated*

Already possible - just turn off "show partial labels" in the label settings for your project.
