

QGIS Application - Bug report #8609

HTML Annotation does not display HTML

2013-09-14 12:38 AM - Tim Sutton

Status:	Closed	
Priority:	Normal	
Assignee:	Marco Hugentobler	
Category:	Map Canvas	
Affected QGIS version:	master	Regression?: No
Operating System:	OSX	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 17350
Description		
<p>Using master / 2.1 setting the html page for an html annotation has no effect, the box remains white. I tested using the small snippet:</p> <pre><html> <head> </head> <body> <table border="1"> <tr> <td>Row 1 Cell 1</td> <td>Row 1 Cell 2</td> </tr> <tr> <td>Row 2 Cell 1</td> <td>Row 2 Cell 2</td> </tr> </table> </body> </html></pre> <p>I also tried testing with a locally downloaded page from my web browser.</p>		

Associated revisions

Revision 53c3ed2d - 2016-10-12 06:20 AM - Nyall Dawson

Fix HTML annotation does not display HTML (fix #8609)

Annotation was only rendering html when it was associated with a map layer. Now if it isn't associated with a map layer it will always render the html.

They work for me here however you have to have a active layer before you add it otherwise it doesn't render.

Should it work without an active layer?

#2 - 2016-10-11 09:25 PM - Nyal Dawson

- *Status changed from Open to Closed*

Fixed in changeset commit:"53c3ed2dc02baf43c3a5cc7323f37869f434f25a".
