

QGIS Application - Bug report #8653

2.0.1-Dufour Microsoft Visual C++ Runtime Error

2013-09-23 06:30 PM - Richard Langford

Status: Closed			
Priority: Normal			
Assignee:			
Category:			
Affected QGIS version: 2.0.1			
Operating System:		Regression?: No	
Pull Request or Patch supplied:		Easy fix?: No	
Crashes QGIS or corrupts data:		Resolution: duplicate	
		Copied to github as #: 17383	
Description			
<p>I have 64 bit W7, and a new install of QGIS 2.0.1, with an error on start, when or after "Restoring loaded plugins". I have C++ 2005, 2008 and 2010 loaded.</p> <p>The error window reads:</p> <p>"Microsoft Visual C++ Runtime Library Runtime Error! PROGRAM: C:\\PROGRA~1\\QGISDU~1\\bin\\qgis-bin.exe R6034 An application has made an attempt to load the C runtime library incorrectly. Please contact the application's support team for more information."</p> <p>QGIS does load after I close the error window, so I suspect some of the modules/plugins will fail, but which ones and why? Thanks.</p>
