Affected QGIS version:	2.0.1	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	duplicate
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	17392

Description

Straight forward: legend element broken.

Steps to reproduce:

1. Create a new project
2. Add two vector layers (number is irrelevant)
3. Create a new composer window
4. Add a legend element

You'll notice the none of the legend items have symbology attached to the labels.
