<p>I went to Settings-&gt;Options.</p> <p>Selected the "CRS" tab and clicked the "help" button. The help that comes up says:</p> <p>This dialog allows you to select some basic options for QGIS. There are eight tabs:</p> <ul style="list-style-type: none"><li>General</li><li>Rendering &amp; SVG</li><li>Map tools</li><li>Overlay</li><li>Digitizing</li><li>CRS</li><li>Locale</li><li>Network &amp; Proxy</li></ul> <p>There are (in 2.0.1) 11 tabs and only 5 of them are correctly listed in that list.</p>
