

QGIS Application - Feature request #8722

Remove SPIT

2013-09-29 01:19 PM - Giovanni Manghi

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	C++ Plugins	
Pull Request or Patch supplied:	No	Resolution: invalid
Easy fix?:	No	Copied to github as #: 17439
Description With the addition of support for schemas in the "import into postgis" tool of sextante/processing the SPIT tool (unmantained) become useless because the sextante/processing tool can work in batch mode. Moreover Victor will make an addition to DB Manager in order to allow D&D of multiple vectors into PostGIS. The motion was also discussed on the dev mailing list and +1 by many.

- Resolution set to invalid
- Status changed from Open to Closed

Unfortunately is not that obvious for who has to routinely import many vectors into PostGIS all in one go. Will write again in the dev mailing list about it.
