- *Target version set to Future Release - High Priority*

what about "save as..."? it works or crashes?

here on Linux qgis does not crash using the dxf2shp plugin.

#4 - 2013-10-01 06:50 AM - Sandro Eduardo Nobrega

If i just add the dxf file as a layer and then save it as shp it doesn't crash...

This plugin is unmaintained and (I guess) likely to be removed from qgis.

Anyway it seems to be ok on qgis master (the next 2.2) and I can't see any crash with the provided file, using QGIS on Windows.
