

QGIS Application - Bug report #8758

graduated classes on expression broken

2013-10-03 02:25 AM - Régis Haubourg

Status:	Closed	
Priority:	High	
Assignee:	Martin Dobias	
Category:	Symbology	
Affected QGIS version:	2.0.1	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 17467
Description		
Hi Nathan, Only equal interval classification method is working in revision 968c321, the other gives empty results.. Cheers Régis

Fix #8758 (graduated classes on expression broken)

History

#1 - 2013-10-04 10:23 AM - John Tull

- File QGIS_2013-10-04-101635_Hawkeye.txt added

If I try to use graduated classes for styling, selecting the standard deviation option in the drop-down selector causes a crash for me. I've attached my crash log, this on OS X.

If I use equal interval, my classes are created, but no values are assigned. They are all value: 0.0-0.0.

Quantile also causes a crash when selected from the drop-down menu. Natural Breaks (Jenks) and Pretty Breaks do nothing (no classification at all).

#2 - 2013-10-25 07:53 AM - mlennert -

Using the version described below, I can confirm this bug, but not the crashing part. I just can't get any other classes except for equal interval, using a very simple shapefile with 4 polygons, one integer field (population) in the attribute table and calculating the expression: "population" / (\$area / 1000000)
