

QGIS Application - Feature request #882

Add option to save symbology as file

2007-12-27 12:10 PM - cdavila -

Status:	Closed	
Priority:	Low	
Assignee:	Tim Sutton	
Category:	Symbology	
Pull Request or Patch supplied:		Resolution: duplicate
Easy fix?:	No	Copied to github as #: 10941
Description		
<p>It would be nice to have an option in <i>Layer properties->Symbology</i> tab to save the symbology in a file once you have set it as you like for a given layer, so that it is automatically applied if you load that layer in other project and also to be available to be used for a different layer through a <i>Browse</i> button in the dialog.</p>		

History

#1 - 2007-12-30 07:21 PM - Gary Sherman

This is already mostly done and will be part of 9.2.

See <http://www.nabble.com/A-trip-down-memory-lane---avl-style-support-in-QGIS-to13767934.html>

#2 - 2007-12-30 07:30 PM - Gary Sherman

See #840

#3 - 2007-12-31 03:31 AM - cdavila -

- Resolution set to duplicate

- Status changed from Open to Closed

That's exactly what I asked for, so sorry for my duplicated report. I think this ticket can be closed, as it is included in #840
