QGIS Application - Feature request #885
enable user to create new PostGis layers

2007-12-29 03:42 PM - Maciej Sieczka -

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	Data Provider		
Pull Request or Patch supplied:		**Resolution:**	fixed
Easy fix?:	No	**Copied to github as #:**	10944

Description

It would be a great improvement if such a fuctionality was added to [[PostGIS]] dialog. There is a prototype at r1, but it's to cumbersome in use - the user has to specify his role name, server, port, dbase, schema, column types by hand every time.

We have the very good Postgis Manager now. With it we can create new postgis tables, among the other things.

Can we consider this request fulfilled?

#2 - 2009-07-19 01:37 AM - Giovanni Manghi

- Resolution set to fixed

- Status changed from Open to Closed

I close this ticket, reopen if necessary. Hopefully Postgis Manager will become core pretty soon.
