

QGIS Application - Bug report #8872

Create ring in multipart polygon fails

2013-10-16 06:00 AM - Jonathan Moules

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Digitising	
Affected QGIS version:	2.0.1	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 17552
Description		
<p>If I try and create a ring in a multipart polygon (advanced digitising), it fails with the error "The inserted Ring is not contained in a feature". But it is in a feature. I suspect it is failing because it is multiparted. The error should say this if it's not meant to work in them.</p>		

History

#1 - 2015-10-13 05:19 AM - Nyall Dawson

- Resolution set to fixed/implemented
- Status changed from Open to Closed

Not reproducible in current master
