

QGIS Application - Bug report #8904

clipping not working

2013-10-18 01:21 AM - Gavin Fleming

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Processing/Core	
Affected QGIS version:	2.0.1	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 17582
Description I'm trying to clip various layers with a polygon, all in 4326 and none of the available clipping tools are working - fTools, SAGA and the QGIS clipping algorithm in Processing. If I don't get a division by zero error, I get an empty result after significant processing time. All layers are definitely in the same CRS. using ubuntugis-nightly.
