<b>Description</b>			
I've missed feedback requests and comments on several QGIS issues I've reported because I don't get email notifications. I've tried various settings in my account but still don't get emails. Do I have to Watch my own issues? Surely I should be default get notifications about any updates to issues I reported?

Hm, apparently google takes your emails:

Oct 18 01:23:40 qgis postfix/smtp[14567]: 09C72230BDD: to=<gavin@afripatial.co.za>, relay=aspmx.l.google.com[74.125.129.26]:25, delay=1.4, delays=0.02/0/0.94/0.44, dsn=2.0.0, status=sent (250 2.0.0 OK 1382084620 u9si261302pbf.173 - gsmt)

Did you receive that one (times are in PDT -0700 - so above is about half an hour ago)?
