

QGIS Application - Feature request #8926

Set the color of the Selection Tool bounding box

2013-10-21 12:33 PM - Eric Goddard

Status:	Open	Resolution: Copied to github as #: 17598
Priority:	Normal	
Assignee:		
Category:	Map Canvas	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>When using the Select Features tool, the default color (light gray) of the bounding box within which the features will be selected is difficult to see against the white canvas background and certain feature colors. It would great if the color could be changed similar to the Measure tools' 'Rubberband Color' setting.</p>

Sorry, the fix was not for this issue.

Anyone could reopen it ? I cannot seem to change issue status!
