QGIS Application - Feature request #9003

Export report in georeferencer plugin does not export all gcp table attributes

2013-11-04 12:32 PM - George Rodrigues da Cunha Silva

Easy fix?:	No	**Copied to github as #:**	17659

Description

I save the GCP report just fine, but it does not export the deltas and RMS error calculations.

I need this to justify to customers the accuracy of the imagery. I can surely take a print screen of the report, but with a high number of points, it becomes a painful issue.
