

QGIS Application - Bug report #9088

Text Annotation Symbols size is wrong in map composer

2013-11-19 05:20 AM - Geoff Owen

Status:	Closed	
Priority:	Severe/Regression	
Assignee:	Martin Dobias	
Category:	Map Composer/Printing	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 17733
Description I am able to add text annotaion to map canvas without any problem. Problem arises when going to map composer. Text annotation symbol is very very small, no matter what size I make it in map canvas. Seems to happen whatever symbol I use (circle, square triangle etc). Thanks

Fix #9088 (Text Annotation Symbols size is wrong in map composer)

History

#1 - 2013-11-19 09:51 AM - Giovanni Manghi

- Status changed from Open to Feedback
- Target version changed from Version 2.0.0 to Future Release - High Priority

do you have any evidence if this was working the right way in qgis 1.8?

Hello

Text annotation symbols worked fine with QGIS 1.8.

Size of symbol on map canvas was the same on map composer.

Thanks

#3 - 2013-11-20 02:59 AM - Giovanni Manghi

- Category changed from Labelling to Map Composer/Printing
- Priority changed from Normal to Severe/Regression

I'll tag this a regression, meanwhile can you test QGIS master and see if by any chance this has been fixed there? thanks.

Hello Giovanni

I downloaded Master on 21 November.

The text annotation symbol problem is the same as that on stable version.

Regards

Geoff
