Oh or if the map appears, it almost always has a different zoom, so the map and the layers don't fit together. That is not visible before and only occurs in the Image data...

#2 - 2013-11-23 06:21 AM - Giovanni Manghi

- Resolution set to invalid
- Status changed from Open to Closed

Hi Veronika,

if you have questions/doubts the right place is the users/developers mailing list, the qgis irc channel or gis.stackexchange.com

Regarding your question, are you using the Openlayers plugin? if yes then those maps are not supposed to be printed.
