

QGIS Application - Feature request #9193

Differentiate add layer dialogs

2013-12-11 04:17 AM - Jonathan Moules

Status:	Open	Resolution: Copied to github as #: 17821
Priority:	Low	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>QGIS has lots of "Add layer" dialogs which all look extremely similar. How about adding some big text somewhere (and the Icon for that dialog) somewhere on the dialog so the user always knows which one they're on?</p> <p>So in the top right it could say: "WFS" and have next to it the WFS globe icon.</p>

- Status changed from Open to Closed
- Resolution set to duplicate

WFS selection window already mentions WFS and the rest is a duplicate of #9192.

Sorry Jürgen, I wasn't clear. This isn't a duplicate (I opened the other issue too) and applies to WFS too.

See the attached ugly mockup for the sort of thing I mean. Having it in the title bar is nice, but it's still not that obvious.

#3 - 2013-12-13 05:35 AM - Jonathan Moules

Could someone re-open this ticket as it's not a duplicate. Thanks.

#4 - 2013-12-13 06:06 AM - Jürgen Fischer

- Status changed from Closed to Open
- Priority changed from Normal to Low
- Resolution deleted (duplicate)

#5 - 2017-05-01 12:48 AM - Giovanni Manghi

- Easy fix? set to No
