Description		
http://www.qgis.org/en/docs/pyqgis_developer_cookbook/canvas.html		
In the "Writing Custom Map Tools" example, in the canvasReleaseEvent method definition,		
"print "Rectangle:", r.xMin(), r.yMin(), r.xMax(), r.yMax()"		
should read:		
"print "Rectangle:", r.xMinimum(), r.yMinimum(), r.xMaximum(), r.yMaximum()"		
Otherwise, awesome example - thanks so much!
